

Global Issues and Digital Media: Integrating Latin American and Caribbean Communities into the Curriculum

**Monday, August 2-Friday, August 6, 2021
Online via Zoom**

Global Issues and Digital Media is a one week virtual workshop in which teachers actively engage with current issues in Florida's diaspora communities and their roots in Latin America and the Caribbean. Teachers gain an understanding of the interrelatedness of local and global issues and develop the skills to use digital tools and culturally sustaining pedagogy in the curriculum. Through open discussions, hands-on activities and field work, teachers learn how to enhance connections among their students, their schools, and their communities.

Registration is limited to Grade 6-12 teachers and administrators from Title I-Eligible Schools.
