

Tropical Botany for K-12 Educators

June 21 - 25 2021 9:00 am to 4:00 pm

Tropical Botany Conservation course for K-12 educators is a week long course with an introduction to botanical concepts including plant classification, morphology, anatomy, physiology, photosynthesis, and critical plant-pollinator interactions. This workshop includes a combination of teaching methods including lecture, plant dissections, lab activities, independent and cooperative inquiry, and guided Garden walks! Teachers will learn hands-on activities and interdisciplinary teaching methods to easily adapt to the classroom.
