

Virtual Exchange and Gallery Exhibition for Camillus House and Pridelines COVID-19 PhotoVoice Projects

Wednesday, April 14, 2021
4:00-5:00 pm EST
Online via Zoom

This virtual event celebrates the work of two groups of artist-participants who created photo galleries of their experiences and analysis of the COVID-19 pandemic. Specifically, we will showcase photos taken by members of the Camillus House "heArt Room," an art therapy program for people experiencing homelessness, and members of a Pridelines' Spanish speaking support group for people living with HIV/AIDS. Together, their photos visually unveil how vulnerable groups of people have experienced health-safety protocols and other consequences of the COVID-19 pandemic. The event will include discussions and a question/answer session with the artist-participants.

Simultaneous English-Spanish translation will be available for all attendees. Free and open to the public.

Registration:

<https://go.fiu.edu/99367471446>

Co-sponsored by the Department of Global and Sociocultural Studies at FIU, Pridelines, and Camillus House. Part of LACC's Health and Society Program of Excellence.
