Haitian culture comes from a mix of West African, Taino, and European influences, which originate from the colonization that occurred during its history. The history of Haiti has molded its people into who they are today, both bright and resilient. In this presentation, Francisca Arlegui will discuss various aspects of Haitian culture in relation to its demographic, language, religion, music, art, food, sports, and education.

The event will be in Haitian Creole.

For more information and to RSVP, contact Lindsay Dudley at ldudley@fiu.edu.

This event features Francisca Arlegui, an FIU December 2022 alumna, who will present the final project for her LACC Undergraduate Haitian Studies Certificate.

Part of LACC's Haitian Studies Program of Excellence.
